### rNuQ H3.3 Recombinant Mononucleosome

**Part number:** NUC0018

**Species:** *Human*

**Source:** *E. coli* and synthetic DNA

#### Description:

Recombinant nucleosomes were assembled *in vitro* using a 147 bp of 601 [1] positioning sequence DNA and four core histones (H2A, H2B and H4) purified from *E. coli* inclusion bodies, and synthetic H3.3.

#### Buffer composition:

Triethanolamine hydrochloride - NaCl - EDTA - Azide.

#### Applications:

Human recombinant mononucleosomes are suitable for chromatin remodeling and accessibility studies, post-translational modifications (PTM)-specific antibody validation [2], chromatin research [3], as well as nucleosome binding assays in drug discovery and high-throughput screening (HTS) applications [4,5].

For a corresponding unmodified control, we recommend NUC0001 - rNuQ H3.1.

#### Validation data:

**Figure 1: Western blot analysis of rNuQ H3.3 mononucleosome versus unmodified H3.1 mononucleosome.** Lane 1 contains unmodified rNuQ H3.1 recombinant mononucleosomes (200ng; Volition, NUC0001), and Lane 2 contains rNuQ H3.3 (200ng; Volition, NUC0018). Probing with an anti-H3.3 antibody followed by enhanced chemiluminescence (ECL) detection reveals a signal only in the rNuQ H3.3 recombinant mononucleosome.

**Figure 2: Native PAGE analysis of rNuQ H3.3 mononucleosomes.** Lane 1 contains the DNA ladder, lane 2 shows free 147bp 601 DNA, and lane 3 shows intact rNuQ H3.3 nucleosomes (500 ng). Samples were resolved on a native PAGE gel and stained with Midori Green to visualize the DNA. Intact nucleosomes, in lane 3, display reduced mobility relative to free DNA, consistent with correct nucleosome assembly.

**Figure 3: Mass spectrometry analysis of Synthetic H3.3 histone.** Confirming the expected mass (15,198.87 Da) matches the observed mass (15,200.44 Da).

#### Storage and stability:

This product must be stored at 2-8°C and is stable for 6 months from date of receipt. Do not freeze. Use surface optimized tubes (e.g. low bind tubes) and tips for handling and storage.

#### Precautions:

This product is for research use only. Not for use in diagnostic procedures. Not intended for use in humans or animals.

#### Gene and protein information:

UniProt ID:

H2A - P04908

H2B - O60814

H3.3 - P84243

H4 - P62805
